

## **TRON 4TB6 Self-Reflection#2, Due March 30, 2025.**

**Student Name:**

**Course Learning Outcomes that will be focused on for the reflection assignments:**

1. Be able to work professionally within a group.
2. Select and apply appropriate analytical techniques, resources and engineering tools to the solution of open-ended problems with an understanding of their associated risks.

**As you respond to the prompts below, please remember that your responses must be related to the intended learning outcomes listed above.**

- In three to five sentences, identify and describe ONE critical incident, breakthrough or big thought-provoking moment that has occurred as a result of applying your engineering-based knowledge to your capstone project in Capstone this year.
  - *Guide: When did this experience take place? Where did it take place? What actions did I take? How did I feel during this experience?*
  
- In two to three sentences, discuss how you will integrate this new insight into your engineering practice and may apply it as an engineering professional in your future experiences.

**NOTE:** your responses must be written in these text boxes and in 12-point, Times New Roman font. The response boxes are already formatted for this.
